p

Rēctius vīvēs, Licinī, nequ^e altum
semper urgendō neque, dum procellās
cautus horrēscis, nimium premendō
lītus inīquum.

Auream quisquis mediocritātem
dīligit, tūtus caret obsolētī
sordibus tēctī, caret invidendā
sōbrius aulā.

Saevious ventis agitātur ingēns
pīnus et celsae graviōre cāsū
dēcidunt turrēs feriuntque summōs
fulgura montēs.

Spērat īnfestīs, metuit secundīs
alteram sortem bene praeprārātum
pectus: īnfōrmēs hiemēs redūcit
Iuppiter, īdem

submovet; nōn, sī male nunc, et ōlim
sīc erit: quondam citharā tacentem
suscitat Mūsam neque semper arcum
tendit Apollō.

Rēbus angustīs animōsus atque
fortis appārē, sapienter īdem
contrahēs ventō nimium secundō
turgida vēla.
